Portfolio : VOTRE-PORTFOLIO.com

Profile

Third-year Engineering student specializing in **Data Engineering** at ENET'Com, holding a Bachelor's degree in Business Computing with a dual degree in Computer Science from Le Mans University. Passionate about **Data, AI, and Web Development**, I am seeking a final-year internship to further develop my technical skills and contribute to innovative projects within a dynamic environment.

Professional Experience

Full-Stack Web Developer – Advantrix X

Jun. 2024 – Oct. 2024 / Sfax

- Maintained and enhanced a web-based production monitoring platform and developed new features.
- Provided technical support and user assistance.
- **Technologies** : Native PHP, HTML, CSS, JavaScript, jQuery, Ajax, JSON.

Projects and Academic Achievements

Design & Development – DocuMind : RAG Assistant for Technical Documentation

Ongoing

- Developing a **RAG**-based conversational assistant to answer questions from technical documentation with relevant sources.
- Designing the complete pipeline : document ingestion, chunking, embeddings, vector search, and LLM-based response generation.
- Implementing **RAGAS** to evaluate RAG system quality, along with **MLflow** for experiment tracking and monitoring.
- Versioning with **DVC** and **DagsHub**, CI/CD, and development of a **FastAPI** backend with **Docker**.
- **Technologies** : Python, RAG, LLMs, ChromaDB, FastAPI, Docker, RAGAS, MLflow, DVC, DagsHub.

Summer Internship – Retail Intelligence Platform

Jun. 2026 / Anavid, Sfax

- Developed a Retail Intelligence platform for processing and analyzing customer and transactional data.
- Implemented Batch and Streaming data pipelines using Apache Kafka and Apache Spark, including data processing and feature engineering for training classification, regression, and clustering models.
- Automated and orchestrated workflows using n8n.
- Developed Grafana dashboards for KPI monitoring and integrated data visualizations into the platform interface.
- Implemented MLOps practices, including model and data tracking and versioning with MLflow and DagsHub, model serving through FastAPI APIs, and CI/CD workflow automation using GitHub Actions.
- Developed a RAG/Chatbot solution for intelligent data exploration and analysis.
- **Technologies** : Python, Spark, Kafka, PostgreSQL, Grafana, n8n, Scikit-learn, MLflow, DagsHub, GitHub Actions, FastAPI, Ionic, React.

End-of-Year Project – Autism Detection Using Graph Neural Networks

Feb. 2026 – Apr. 2026

- Applied the **GAT-LI** model to the **ABIDE I** dataset for autism classification.
- Preprocessed and analyzed neuroimaging data.
- Evaluated model performance.
- Developed the NeuroScan platform using Flask for automated analysis of fMRI files and visualization of classification results.

Technologies : Python, PyTorch, Scikit-learn, NumPy, Flask.

Final-Year Internship – CMMS Platform

Jan. 2024 – Jun. 2024 / Advantrix X, Sfax

- Designed and developed a web-based Computerized Maintenance Management System (CMMS) platform.
- **Technologies** : Native PHP, HTML, JavaScript, CSS, Ajax, jQuery, JSON.

Education

2024 – Present : Engineering Degree – Data Engineering and Decision Systems (IDSD) – ENET'Com, Sfax

2021 – 2024 : Bachelor's Degree in Business Computing – FSEGS, Sfax

Dual Degree in Computer Science – Le Mans University, France

2020 – 2021 : Baccalaureate in Experimental Sciences – 15 November 1955 High School, Sfax

Technical Skills

Big Data & Streaming : Apache Spark, Apache Kafka

MLOps & Monitoring : MLflow, DagsHub, GitHub Actions, Grafana, n8n

Programming Languages : Java, Python, Scala, C, JavaScript, PHP, C#, Dart, PL/SQL

Frameworks : Spring Boot, FastAPI, React, Express.js, Symfony, Laravel, Flutter, Ionic

Databases : PostgreSQL, MySQL, MongoDB

Tools & Environments : GitHub, Linux, VS Code, IntelliJ IDEA, Visual Studio, Jupyter Notebook, Android Studio, Node.js

Languages

Arabic : Native **French** : Good proficiency **English** : Intermediate

Extracurricular Activities

Member – Microsoft Tech Club FSEGS

Participated in initiatives related to emerging technologies, personal development, and professional development.

Interests

Artificial Intelligence, Digital Transformation, Industry 4.0, Machine Learning, Deep Learning, Data Science.
